SWAIM'S CELEBRATED
PANACEA,
FOR THE CURE OF INCIPIENT
CONSUMPTION.
SCROFULA, GENERAL DEBILITY, WHITE SWELLING, RHEUMATISM, DISEASES OF THE LIVER & SKIN, AND ALL DISEASES ARISING FROM IMPURITIES OF THE BLOOD, AND THE EFFECTS OF MERCURY

SWAIM'S PANACEA has been for more than 30 years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M. D., Professor of Surgery, Pa. University.
Valentine Mott, M. D., Prof. of Surgery, N. Y. University.
W. P. Dewees, M. D., Prof. of Mid., Pa. University.
N. Chapman, M. D., Prof. of Physic, Pa. University.
T. Locke, M. D. Pres't. College of Physicians, Phila.
Dr. Del Valle, Prof. of Medicine, Havana.
Jose Estrecare de Lurz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spain.
J. Chipman, Member of Royal College Surgeons, London.
Sir Thomas Pearson, Maj. General British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it invaluable remedy. The Panacea does not count Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass

"SWAIM'S—PANACEA—PHILAD'A"

and having the name Jas Swaim, stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine differen[illegible]ties, which have been granted for the exclusive use of the Proprietor, by Draper & Co., bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as worms, Cholera Morbus, Dyscatery, Fever and Ague, Bleeding Piles, Sick Headache, &c. &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWIM'S LABORATORY, old stand, Seventh St., below Chestnut, Philadelphia, and sold by all respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name of SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

The Daily News.

NEWPORT,

BY CRANSTON & NORMAN

144 Thames Street.

WEDNESDAY MORN'G, MAY 22, 1856

☞ The May Term of the Court of Common Pleas commenced in this city yesterday. Judge Shearman delivered a brief but comprehensive charge to the Grand Jury.

National K. N. Convention.—According to the Memphis News, the convention to nominate a candidate for the Presidency on the American ticket will be held in that city on the second Monday in April, 1856

The Unitarian church in Cambridgeport, Rev. H. W. Harrington pastor, was destroyed by fire yesterday morning. It was but partially insured.

A juvenile Ball was recently given at Buckingham Palace, to celebrate the anniversary of Prince Arthur's birth-day. His royal highness—to whom the late Duke of Wellington stood a god-father—has completed on the first of May, his fifth year,and can already dance the polka. About two hundred invitations had been issued to Dukes, Marquises, Marls, Viscounts, etc. in bud. Members of the diplomatic corps, blessed with children, were also invited, but such as are bachelors or without a family, were not asked.

The Last Day.—It Happens very unfortunately for the Millerites, that every day appointed for the grand "wind up" of earthly affairs, with the year past has either been extremely wet and moist, or rain has been sure to follow the ensuing day. Saturday the 19th the final close was to have been witnessed, but instead of a general conflagration, the windows of the heavens were opened, and the floods descended in Niagara-like torrents. There must be some mistake in all this matter and we hope that the victims of this most unfortunate delusion will be led to see the error of their ways and again become clothed in their right.—*New Bedford Standard.*

☞ Capt. Henry Coffee, 1st Artillery, Assistant Professor of Ethics at the United States Military Academy, having accepted the appointment of Professor of English Literature at the University of Pennsylvania, vice Professor Henry Reed, lost in the Arctic, has tendered the resignation of his office. The following is a recapitulation of the appropriations made by the last session of the late Congress :

Civil, Diplomatic and Miscellaneous,	$17,265,929 59
Army fortifications, Military	12,571,496 64
In fine department, naval, revolutionary & other pensions,	4,153,536 10
Naval service,	15,012,091 52
Post Office Department,	10,916,844 26
Ocean steam mail service,	3,574,458 88
Texas Debt,	7,760,000 00
	$71,674,357 00

Light in Western Massachusetts.—The Mayor of a city in Western Massachusetts is the author of the following remarkable announcement :

It is the duty of government officers as all good citizens to support and abide by all the laws of the government under which they live, and *whenever any law is enacted the obligation still holds good.*

Where is *the* leather medal ?

A pleasant anecdote is told of Dr. Franklin. The town of Franklin was named for him. While in France, a gentleman in Boston wrote to him of the fact, and added, that as the town was building a meeting house, perhaps he would give them a bell. Franklin wrote the characteristic reply, that he presumed that the good people of F. would prefer sense to sound, and therefore he would give them a town library. This he did, and the library is now in very good condition, and has been of great service to the readers.

A Life Well Spent.— English papers mention the suicide of a Mr. Roylstone, who, ten years ago, was worth one hundred and fifty thousand pounds sterling, which he has since squandered in the gratification of his appetite. He had agents in China, Mexico, Canada and other places to supply him with the rarest delicacies ; and a single dish sometimes cost him fifty pounds. At length, on the 15th of last April nothing was left him but a single guinea, shirt and a battered hat. He bought a woodcock with the guinea, which he had served up in the highest style of art. He gave himself two hours for an easy digestion, and then jumped into the Thames from Westminster bridge.

Health.—An indispensable requisite for business as well as amusement which young men spend the greater part of their time in damaging, and old men the greater part of their wealth in repairing.

Consumption of Iron at Sebastopol.—If the Russian war shall have the effect to diminish the manufacture of railway iron in England, it seems likely to create a demand for iron in the shape of cannon balls and shells quite equal to, if not exceeding, the diminution in the amount required for railroads. By the last steamer's news we learn that the Allies have five hundred guns playing on Sebastopol, firing one hundred and twenty rounds daily. We calculate that fifty of these shot and shells will weigh one ton. At every round fired there will be of course ten tons, and each day twelve hundred tons weight of cannon-balls and shells thrown into Sevastopol.—The bombardment at the latest dates lasted twelve days, and of course there had been thrown into the town in that time, fourteen thousand four hundred tons of iron. It is probable that the Russians may have hurled back at the Allies nearly the same weight of metal, and it is safe to compute the total consumption of iron in the seige of Sebastopol for these twelve days at twenty-five thousand tons. This iron, thus thrown away and wasted in war in the brief period of twelve days, would furnish the metal required to construct about 2,200 miles of railroad.—Louisville Journal.

Receipts of Religious Societies.—The aggregate receipts of 14 religious and benevolent societies, the anniversaries of which have just been concluded at New York, are $1,589, 534, against $1,669,252 in 1854,—thus showing a diminution as compared with the previous year of $79,718. This is a less decrease than had been anticipated, as the attendance at the anniversaries, and the interest felt in them was apparently much less than on previous occasions.—The Bible Society which presents claims second to none other, is found to be the most largely in arrear. The receipts of the fourteen societies refered to were as follows :—

American Tract Society $413,174 ; American Bible Society, $346,811 ; American B. C. Foreign Missions, 216,683 ; Pres. Board Foreign Missions, 184,074 ; American Home Mission Society, 180,137 ; American Foreign and Christian Union, 63, 867 ; American Baptist Home Mission Society, 64,346 ; American and Foreign Bible Society, 40,034 ; American Seamen's Friend Society, 22,845 ; American [Anti Slavery Society, 18,000 New York State Colonization Society, 17,571 ; American Female Guardian Society, 10,869 ; Jews Society, 10,000 ; Central American Education Society, 4,323. Total—$1,599,554.

What the Liquor Dealers Mean to Do.—The question having been judicially of the prohibition business are beginning to ask what course is to be adopted by the liquor dealers *after* the " Glorious Fourth." For the information of all inquiring minds, we are authorized to announce, that the *modus operandi* decided upon by the larger sellers will be as follows :—Mr A., on the morning of the 5th of July, will continue to sell all sorts of liquors, in all quantities, as usual. A Carson League spy comes smelling and tasting around, for the purpose of making his complaint against Mr. A. to the authorities. By and by, in comes an officer of the law, and proceeds to destroy Mr. A's. liquors ; whereupon the aggrieved party calls in some two or three of his most respectable neighbors, and makes them sworn appraisers of his wasted property. He then will instantly commence a suit for damages against the State ; and we understand that Mr. Charles O'Conor, and several of our old and ablest lawyers, are willing to risk their legal reputations upon the recovery of damages to the uttermost farthing.—*N. Y. Mirror.*

Important Change in the Guano Trade.—In consequence of the quantity of spurious or adulterated guano sold as genuine Peruvian, the government of Peru have resolved to reduce the price of the pure article to forty-five dollars per ton, and to require that all damaged, unmerchantable, or adulterated guano shall be sold at public auction, through her accredited agents to consumers alone. The contemplated new agency, of *modus operandi*, will consist of a chief agent for the United States, who, according to the Baltimore Patriot, has already been designated, with power to appoint numerous subordinate agents and agencies at all important points—these agents to be American citizens—and by them are the entire details of business to be transacted. Sales in all cases made directly to consumers. When this system goes into effect, any guano offered or sold as Peruvian by persons not belonging to, or connected with the legitimate agency, will be pronounced spurious and easy of detection. Thus it will be convenient at all times to obtain, with perfect confidence, the approved, genuine article. Indeed we learn that all the measures contemplated in this new system tend toward the benefit of this country, especially to agriculturalists; and at the same time, must eventuate more lucratively and advantageously to the government of Peru.

Dismal Foreboding.—Mr. White said in the Senate on Saturday afternoon, that "he was in favor of 21 years residence for voting, and none but Americans to hold office, but he could not have his way this year, *and feared the chances would be smaller another year.*"—*Boston Atlas.*

BY TELEGRAPH.

Philadelphia, May 21.

The case of Col. Kinney came up before Judge Kane, this morning. Mr. Dallas, his counsel, argued for a reduction of bail, and demanded a speedy trial. He also read a number of affidavits—one, that of the owner of the steamer, which states that there was no armaments or power on board, and the intended expedition was for colonizing only,—also stating that the steamer had been ready for sea since the 7th inst., and that the delay renders Col. Kinney liable for $1200 a day, demurrage. Mr. Dallas also submitted an account of the hearing in New York, and closed repeating the demand for an early trial. The case was interrupted by calling of juries for the regular term of the Court, but the case will be resumed about 4 this P. M.

[SECOND DISPATCH.]

Mr. Vandyke, the District Attorney, stated his inability to bring up the case before two weeks, on the account of the absence of witnesses. Mr. Dallas said that the delay would be fatal to the expedition, and might as well be delayed two months as two weeks.

After further conversation the case was postponed until the next term, two months hence, with the understanding that the sailing of the expedition need not be delayed. The defendant renewed his bail in the same amount as previously given.

New Orleans, May 19.

A revolution, it is reported, has broken out on the Rio Grande, Mexico, and 1500 men, headed by Col. Cardjaval and others, had crossed the river.

Cleveland, May 21.

The steamer Northerner, from Sault St. Marie, has just arrived here. The canal will not be open for business until the middle of July, owing to the frost.

New York, May 21.

The steamship Illinois, for Aspinwall, and the Northern Light for San Juan, both left this port this afternoon, with full complements of passengess.

In the U. S Circuit Court to day, Capt. Jas. Smith, who was recently convicted of slave piracy on board the bark Julia Moulton, but obtained a new trial, pleaded guilty of voluntary service on board a slaver. He was remanded for sentence, and the District Attorney entered a 'nolle prosequi' in the capital case.

The Shoe Business in Lynn.—The would be a good business in the shoe trade this Spring. It says:—

Our manufactures have had a good Spring business.—They have sold all out; cleared out everything, and could have sold many more shoes for the Spring trade had it been possible for them to have completed the orders in season. We do not undertake to speak for other shoe manufacturing towns but such are the facts in regard to Lynn. The shoe business is at this time as good as it ever was in Lynn. Our manufacturers are all full of orders, and full of work to complete them. The wages of jours are up and coming up. No one who can make a decent shoe is out of employment ; all are busy, all doing well, with a fine prospect ahead

Two of our shoe manufacturers are at this time putting up houses for there own private residence, which will compare with any suburban mansion in the neighbourhood of Boston or elsewhere. One of them with the grounds, is estimated to cost no less than $40,00, and the other from $20,000 to $25,000. Another not long since completed an establishment at a cost of $30,000 or more, and is erecting a green house which will cost about $6,000.

Suspicious Affair in Woonsocket.—A man named Michael Moore, belonging to Waterford, Mass., was found dead on Sunday morning under the Railroad bridge, near the Carrington Mill, with his skull fractured. He was about the village on Saturday evening in company with two other men, and bought a trunk which he left at a house there, which was the last that was seen of him until found dead.

Moral Suasion.—In the Massachusetts House of Representatives on Wednesday Mr. Devereux, of Salem; in arguing in favor of the bill to protect orchards, nurseries, gardens, &c., related the following story to show why such a bill was needed: One pleasant afternoon,while walking in his garden, he caught a youngster in the act of devouring a large melon. He put his hand on the boy's shoulder, and said : "My boy, I don't object to your taking melons on account of their value, but to the manner of your taken them. If, instead of stealing them, you would come to me I would give you what you wanted." The boy was evidently frightened, but he was allowed to depart, and warned against renewing his depredations. "That night," said Mr. Devereux," the boy, with some half dozen others,entered my garden and stole every melon I possessed."—*Boston Atlas.*

Sharp if not Sweet.—The Louisville, Ky. Journal, (Prentice) says of Mr. Wickliffe, abused us in a speech at Bardstown on Monday evening. We think he is a very silly old man to assail us after so long a truce. We apprehend that his intellect must be declining whilst all his bad passions are increasing with age.

Mr. Wickliffe calls us "an abolitionist." The charge is not only false but ungentlemanly. *The truth is, Mr. W. never had any part of a gentleman in him except when he once hit off and swallowed a gentleman's ear.*

Mr. W. says that he would "rather command a regiment of Irishmen than a regiment of Yankees "

We judge, from his exploit in that earbusiness, that he is better fitted to lead a regiment of Cannibals than either.

We do wish that these bitter-blooded old men would suffer us to forget old animosities."

"Sam" a native of Rome.—Martin Luther gave this account of the order which bears very decided resemblance in many respects to the present organization :

"In Italy there was a particular order of friars called *Fratres Ignorentiæ*, that is *Brethren of Ignorance*, who took a solemn oath that they would neither know, learn, nor understand anything at all, but answer all things with *Nescio, Ignoie nothing.*"—[Luther's Table Talk, No. 437.

Fight it Out.—The London Times says:

"It is mere self-delusion to talk of peace now. We must make up our minds to fight it out with a strong heart and a strong hand."

SOAP! SOAP!!

THE subscriber is now prepared to furnish the highly celebrated American Cream, American Laundry, American Manufacturers' Soap, and Cream Soap preparation. These soaps are presented to the public with the fullest confidence in their superiority and utility. A fair trial according to the directions given below, cannot fail to be entirely satisfactory; and an argument more conclusive than pages of certificates and recommendations. A fair trial is all I ask. These soaps do the work of the laundry in the best manner in cold water, either hard or soft, or salt, dispensing entirely with boiling, pounding, washing machines, &c., without injury to the most delicate fabric. In cold weather, health may render it advisable to take the chill off the water.

The tendency of these soaps is to soften the clothes and loosen the hold of the dirt, without injury.

DIRECTIONS FOR USE.—White Clothes—Rub the soap freely on all soiled spots, make a strong suds in water, sufficient to cover, soak a few hours, or all night if convenient, when with a common hand rubbing and thorough rinsing, they will be perfectly clean and beautifully bleached.

Calicoes and other colored articles, wash without soaking and rinse.

Woolens—Wash in warm suds (to prevent shrinking) and rinse.

Merinoes, Silk Velvets, Silks, Ribbons, &c. Wash in strong suds and rinse.

To take Lamp Oil, Wheel Grease, Grease Spots, &c. out of Carpets, Table Covers, and Clothing, rub the soap on freely, soak some time in strong suds, rub out and rinse. Ink spots and stains, use full strength, soak, and wash in hot water.

Gilding and Mahogany.—Wash in weak suds, rub with silk cloth and rinse. Paint, wash in strong suds.

For all other purposes, use as you do the common bar soap, and you will be compelled to admit that it surpasses all other soaps. Manufactured and for sale wholesale and retail, by

SPRATT'S LIGHTNING RODS!

WITH branched and other points made of pure copper and gilded with fine gold, a few of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious imitation made of Cast Iron, and sold last year by some dealers in Lightning Rods.

Also, Fixtures for a new and valuable improvement in applying Insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and effectually preventing the Electrical Fluid from being conducted by iron screws and drives into the steel.

The following recommendations have been furnished gratuitously—

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seene.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

B. SILLIMAN, Jr.
Prof. of Chem. in the Univ. of Louisville;

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.
